

## Nottinghamshire Wildlife Trust

### **GORDON DYNE**

#### **Trustee**

- Worked 30 years for Severn Trent Water initially in finance and then Transport Services (management information or more accurately messing around with computer data). Retired in 2001, then worked part-time for the Arboretum Health Team, a GP practice, for several years and then for Nottingham City Councils Human Resources Dept, retiring again in 2010.
- My involvement with NWT began in 1993 helping with the Wilwell Farm Cutting work party. In 1995 I took over as reserve warden (there was no one else) and have continued as warden to this day. I believe that basic ongoing local nature conservation activity is the foundation of our work.
- Around 1995 I also got involved in the South Notts Local Group, becoming Chair in 2000 and still am. Over the years SNG has expanded its activities, promoting the work of the Trust locally via e-mail, our web site, and press releases.
- In 2007 I started going along to the NWT Sites committee on a regular basis and became a Trustee late 2011. Now that definitely is voluntary work!
- Other interests include history, current affairs (news not Heat), various genres of fiction and I also love Radio 4 plays and documentaries.
- In 2009 I received a First in Environmental Studies from Exeter University. In the past few years I have also done a number of Workers Education Courses and have become a MOOC junkie.

#### Committees

Member of Conservation Committee

Also Chair of the Rushcliffe Nature Conservation Strategy Implementation Group (RNCSIG) formed in 2003 from involvement with Rushcliffe Agenda 21, looking to ensure that nature conservation formed part of the process.
