EMEC is a growing business, with project delivery across the East Midlands and beyond. We have an exciting opportunity for a **Land Management Supervisor** to join our experienced and friendly Land Management team.

You will oversee and supervise the delivery of habitat and site contracts in Nottinghamshire and the wider area. This will include grassland, woodland, scrub and wetland management, survey and monitoring activity and event delivery.

You'll be someone who wants to make a difference and help nature's recovery, with experience of planning, supervising and delivering practical conservation and countryside management work.

Work will include travel and staying away from home, as well as work on difficult terrain and the use of heavy equipment, e.g. steep slopes and in inclement weather.

Let's be honest, not all ecological consultancies are the same. We want to do the very best for nature and ALL of our profits are gift-aided to the Nottinghamshire Wildlife Trust to support conservation directly on the ground.
